Cilji in kompetence:

Cilj predmeta je omogočiti študentom, da pridobijo poglobljen in kritičen vpogled v področje pravosodnega sodelovanja v civilnih in gospodarskih zadevah v EU, ki je podvrženo hitremu razvoju in rasti. Predmet je namenjen spodbujanju **znanja in razumevanja** narave ter delovanja evropskega kolizijskega prava in civilnega postopka, kot tudi prepletosti prava EU in nacionalnega prava. Predmet si poleg tega prizadeva, da študenti pridobijo **veščine** glede uporabe teoretičnega znanja pri identifikaciji, analizi ter reševanju praktičnih primerov, kot tudi **vrednote in odnos** do temeljnih načel, kot so medsebojno zaupanje in spoštovanje temeljnih procesnih jamstev.

Objectives and competences:

The course aims to provide students with a thorough and critical insight in the fast growing and developing area of judicial co-operation in civil and commercial matters in the EU. The course aims at promoting **knowledge and understanding** about the nature and operation of legal concepts of European Conflicts of Laws and Civil Procedure and interrelationship between EU law and national law, **skills** in applying theoretical knowledge to identifying, analyzing and solving practical cases as well as **values and attitudes** in regard to underlying principles, such as mutual trust and respect for fundamental procedural guarantees.

Predvideni študijski rezultati:

Po uspešno opravljenih obveznostih pri predmetu bodo študenti pridobili boljše razumevanje instrumentov, pravnih konceptov in temeljnih načel ter strukture Evropskega mednarodnega zasebnega prava. Spoznali bodo vse večjo povezanost med evropskim in nacionalnimi pravnimi redi. Zmožni bodo tudi kritično oceniti načrte za nadaljnji razvoj in poenotenje procesnega ter kolizijskega prava. Pravila in načela prava EU bodo znali uporabiti na praktičnih primerih, torej bodo lahko učinkovito uporabili svoje teoretično znanje. Posledično pa bodo študenti bolje poznali tudi temeljne podobnosti in razlike med nacionalnimi pravnimi sistemi v Evropi.

Intended learning outcomes:

After successfully concluding the course, students will have a better understanding of the instruments, legal concepts and their underlying principles and of the structure of the European Private International Law. They will be aware of the growing interface between European and national legal orders and will be able to critically evaluate the plans of future development and unification of procedural law and conflicts of laws. Students will be able to apply legislative norms and principles of the EU law to practical cases and thus effectively use their theoretical knowledge. Collaterally they will also be more aware of the fundamental similarities and differences in national legal systems in Europe.
