Cilji in kompetence:

Namen predmeta je seznaniti študente z osnovnimi ekonomskimi koncepti s področja financ, ki so osnova za razumevanje finančnih predpisov in aktualnih vprašanj s tega področja.

Na praktični ravni se predvideva, da študentje spoznajo ureditev finančnega poslovanja, načrtovanja in poročanja ter obdavčitve v podjetniškem sektorju v Sloveniji.

Pridobljeno znanje je mogoče neposredno uporabiti pri delovanju v zasebnem in v javnem sektorju.

Objectives and competences:

The purpose of the course is to acquaint students with the basic economic concepts in the field of finance which are the basis for understanding financial regulations and topical questions in this field.

On practical level it is expected that students learn about the arrangements for financial operations, planning and reporting as well as tax payments in the corporate sector in Slovenia.

The acquired knowledge can be applied directly to activities in the private and public sectors.

Predvideni študijski rezultati:

Znanje in razumevanje:

Študentje pridobijo razumevanje osnovnih ekonomskih in pravnih pojmov s področja računovodskega poročanja, poslovnih financ, davkov in prispevkov. Po opravljenih obveznostih so študentje sposobni argumentirano interpretirati zakonske določbe s področja in spremljati ter analizirati slovensko prakso.

Študenti povezujejo pridobljene znanje predvsem z drugimi predmeti s področja ekonomije, gospodarskega prava in prava socialne varnosti. Predmet zagotavlja vsebinske podlage za razumevanje korporacijske in insolvenčne zakonodaje ter predpisov s področja finančnega sistema in javnih financ.

Intended learning outcomes:

Knowledge and understanding:

Students gain understanding of basic economic and legal concepts of financial reporting, corporate finance, taxes and social contributions. After completing their obligations students are capable of argumentative interpretation of legislative provisions and of following and analyzing Slovene practice.

Students link the acquired knowledge mainly with other courses in the field of economics, commercial law and social security law. The course assures the contextual groundwork for understanding of corporate and insolvency law as well as regulations in the field of the financial system and public finance.
